Additional notes:

Under The Further and Higher Education (Scotland) Act 1992, higher education institutions have autonomy. They decide how to divide the academic year, when and how many holidays to have, when and how exam periods should be organised. Traditionally, higher education institutions have started in September/October and finished in May/June. Holidays during the year would be at Christmas and Easter (for approx. a month each) and exams would be at the end of the final term. However, many HEIs have moved to a semester system where the year is split into separate teaching blocks with shorter holidays during the year and exam periods twice yearly. Under this system students can start the year at different times e.g. in September or in January.
