- (1) The HEIs in Hungary are open all year around for students (who can use libraries, computer rooms and other facilities of the HEI), except on Sundays, on state and church holidays. (Several HEIs are also closed between Christmas and New Year.)
- (2) The 2005 Act on HE only stipulates that the academic year must last 10 months. The organisation of the academic year is within the competence of the HEIs. It is determined by the *Senate* and based on the proposal of the head of the HEI. The organisation of the school year does not vary from one type of programme to the next within the same institution.
- (3) Holidays and non-teaching days: the study and examination regulations of HEIs specify the number of days that the head of the HEI may rule to be a non-teaching day for students of the entire HEI above the official public and church holidays. This number is usually no more than 5 days. Besides this the same regulation contains the number of days that the head of the faculty may also rule as non-teaching days for the students of the particular faculty. This is usually no more than 5 days.
- (4) Number of intervals: the academic year in Hungary characteristically consists of 2 terms, an autumn term (*ősz* *félév*) and a spring term (*tavaszi félév*). However, due to institutional autonomy, in a small number of HEIs the academic year consists of three study periods – trimesters.

Additional notes:

Under The Further and Higher Education (Scotland) Act 1992, higher education institutions have autonomy. They decide how to divide the academic year, when and how many holidays to have, when and how exam periods should be organised. Traditionally, higher education institutions have started in September/October and finished in May/June. Holidays during the year would be at Christmas and Easter (for approx. a month each) and exams would be at the end of the final term. However, many HEIs have moved to a semester system where the year is split into separate teaching blocks with shorter holidays during the year and exam periods twice yearly. Under this system students can start the year at different times e.g. in September or in January.
